

ANSI-ASQ National Accreditation Board

2/16/2016

DC Department of Forensic Sciences
401 E Street SW
Washington DC, 20024

Dear Ms. Graham:

The additional site visits and document reviews are complete. All corrective actions and remediation for your agency have been reviewed and deemed appropriate. The training of the analysts and implementation of STRMix is appropriate to deal with mixture interpretations in forensic casework in your agency.

Effective dated above the laboratory is ready to resume DNA forensic casework. An additional visit will be conducted in approximately six months to ensure compliance with newly implemented procedures and requirements.

ANAB commends the DC Department of Forensic Sciences for their diligence with the remediations. Your commitment to a quality management system is appreciated.

Please contact us if you have any questions or require any additional information.

Respectfully,

Pat Bencivenga
Accreditation Manager, Inspection and Forensic Science
